Education

B.Tech, Indian Institute Of Engineering Science and Technology 2021 – 2025
Stream : Electronics and Telecommunication Engineering Shibpur, India
CGPA : 7.45

JEE Main Examination 2021
100 Percentile scored among 2.2 Million Candidates in the JEE Main (Engineering Entrance) Examination .

Professional Experience

Full Stack Developer, DevTown 08/2022 – 11/2022
As a Full Stack developer intern, I got hands-on experience with both front-end and back-end development, learning how to create responsive and user-friendly interfaces, work with databases, and write efficient code.

Technical Content Writer - Intern 11/2022 – present
Delivering quality technical contents (mainly focused on Data Structures & Algorithms).

CodeChef, Problem Setter 11/2022 – present
As a problem setter on CodeChef, I could create challenging programming problems for a global community of competitive programmers which requires a deep understanding of programming concepts and algorithms.

Physics Wallah, DSA Problem Setter and Student Mentor 12/2022 – present

GDG Cloud Kolkata, , Volunteer

Google Cloud Career Practitioners Pathway campaign, Obtained Hands-on practice with the Cloud Console—an in-browser UI that lets you access and manage Google Cloud services. Identified key features of Google Cloud and also about the details of the lab environment. 12/2022 – present

Coding Profiles

Codeforces, Specialist with Rating 1445 📄

Codechef, 5 star with Max. rating 2012 📄

Leetcode, Top 7% , Max. Rating 1792 📄

Skills

Languages

C/C++ , Python , JavaScript

Industrial Skills

HTML , CSS , Data Structures and Algorithm ,
Flask, Django

Projects

Mario-Game, A fun game where you need to help Mario to collect maximum coins. HTML, CSS, JS. Graph. Used Dynamic Programming & Greedy Approach to get maximum coins at each level. [↗](#)

Black-Friday, With the purpose of analyzing and predicting sales, I have used three models. The dataset Black Friday Sales Dataset available on Kaggle has been used for analysis and prediction purposes. Python, Jupyter Notebook. [↗](#)

Zomato - Clone, Zomato is an online food ordering application, This is a clone (Tomato) of it using React Js, Zomato Frontend clone. Tech Stack - React JavaScript, CSS, HTML. [↗](#)

Awards

GeeksForGeeks, Job-A-Thon 2-time winner

-Score : 165/175, 168/175

-Top 10(2 times), Top 3(1 time)

GFG Job-a-thon is a coding competition that tests the programming skills of participants in a real-world scenario. that requires strong technical abilities but also the ability to solve complex problems under pressure.

Leetcode, Top 7% @Leetcode

Organizations

Mood Indigo IIT Bombay, Indigo Squad Member

07/2022

As a member, I worked closely with other students to plan and execute a wide range of events, from music concerts to theater performances to workshops and seminars. I was responsible for managing logistics, coordinating with performers and vendors, and ensuring that all events run smoothly.
